

### Mango International ChargeCard

Small consumer electronics are expected to be a hot item this holiday season, so it's likely someone on everybody's list will appreciate a rechargeable power source that fits in a wallet. Weighing only 2 ounces and measuring just over a quarter of an inch in height, the ChargeCard is one of the lightest, slimmest portable chargers available today. With a 2000 mAh lithium battery, ChargeCard has twice the capacity of the typical cell phone battery and comes outfitted with tips to fit a variety of popular cell phones, smartphones, PDAs, iPods, MP3 players, PSP devices and hand-held GPS units. 845-258-9903
